**ALFA STAR GLOBAL**  
Oil Fields Services LLC

[www.alfastarglobal.com](http://www.alfastarglobal.com)

Initially founded over a decade ago in Dubai- United Arab Emirates, Alfa Star Global is a group of companies with five major business sectors comprising of trading in refined petroleum products, industrial chemicals, refined gold, agricultural commodities and oil & gas field services.

Alfa Star Global Oil Fields Services LLC is technically capable and financially able to improve oil fields' production throughout all domains with our expertise in Oil & Gas Services and Center of Energy Studies, supported by our specialized international partners matched to each project's requirements and size.

We are a fast-growing oil and gas technical services providers and equipment suppliers, specializing in oil and gas services, production enhancement services, IOR/EOR, research and FDP/FFR studies, and suppliers for oil industry tools, material and equipment.

## OUR VISION

To establish ASG as the most distinctive services and supply provider in the Middle East and Africa.

## OUR MISSION

To positively challenge ourselves and keep steadily working towards realizing our vision, equipped with fit for purpose knowledge, experience and using the latest proven technologies.

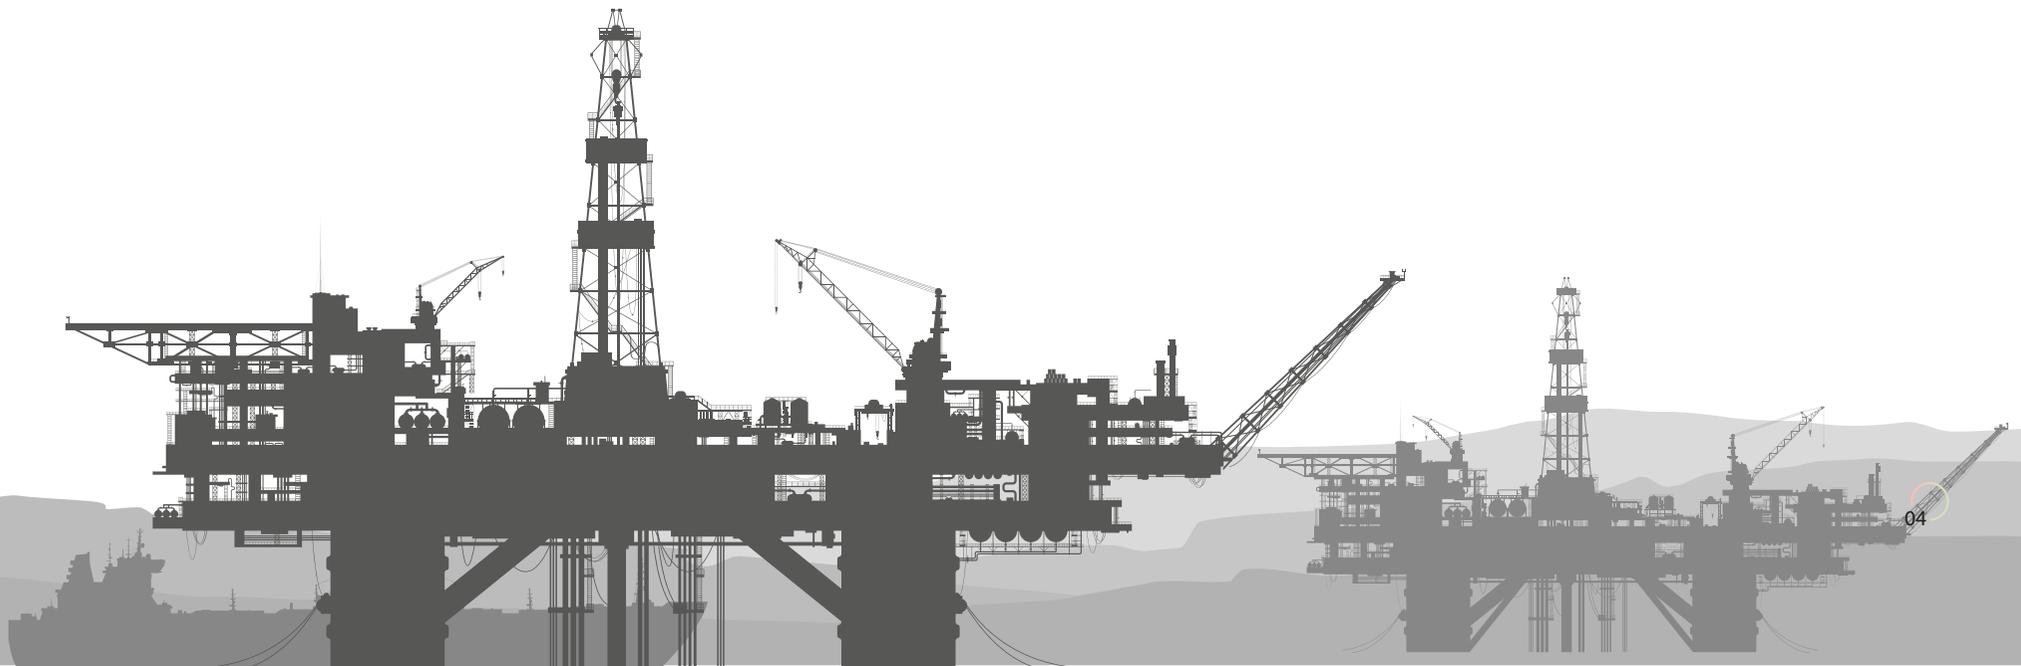

## OUR VALUES & STRATEGY

- High values guide our business to make the best decisions at an executive level and form the basis of the business culture we foster within Alfa Star Global Oil Fields Services LLC.
- Our strategic ambition is to be one of the most recognized leading providers of oil & gas services in our chosen markets. We aim to achieve this through the key elements of our strategy, designed to deliver both sustained earnings and long term growth.
- Leaning on our unwavering faith and drawing from our core values of clever hard work, honesty, integrity and transparency we inscribed our code of business conduct. It is a firm pledge and promise to our customers, clients and stakeholders that ASG will always strive to conduct its business in an environment bounded by the following pillars:

- As an equal opportunity employer, ASG adamantly refuses to let race, gender or nepotism influence or dictate the recruitment and selection process of its human capital resources.
- ASG has zero tolerance for bribery in any shape or form.
- ASG has genuine passion for nature and the environment and as such we are firmly committed to conducting our business without any compromise to the integrity of the natural habitat wherever we run our business. ASG endeavors to achieve a net zero carbon footprint in all of our business activities.
- ASG is consistently conscious of the requirements and expectations of our human capital, our customers, our clients, and our stakeholders that must be delivered timely and with the highest levels of quality and satisfaction.

# Technical Solutions

## Energy Research & Studies Centre

- Oil & Gas
- Renewable Energy
- R & D

## Down Stream

- Refineries
- Pipeline
- EPCC

## Production Enhancement

- Stimulation
- IOR
- EOR

## Well Services & Intervention

- Drilling
- Testing
- WO & Completion
- Reservoir Evaluation
- Casing Damage Solutions
- Artificial Lift

## Business Development

- Marketing
- Sales
- Technical support

## ASG Oil Fields Services

- Conduct FDP Studies, FFR IOR/EOR Project Screening, Designing, Implementation and Evaluation, Production Optimization and Reservoir Management.
- Perform Research and Study to Overcome the Current Challenges Via Project Initiatives and Propose Suitable Solutions for Each Field Challenge.
- OOIP and Reserves Estimation, Verification, and Certification Utilizing Latest Methodologies.
- Drilling, Workover and Completion.
- Well Stimulation (CTU, N2 injection, Acidizing etc.).
- Reservoir Evaluation (Logging, Testing, PLT, and Tracers etc.).
- Thermal/Chemical EOR Pilots (Design, Implementation, Evaluation).

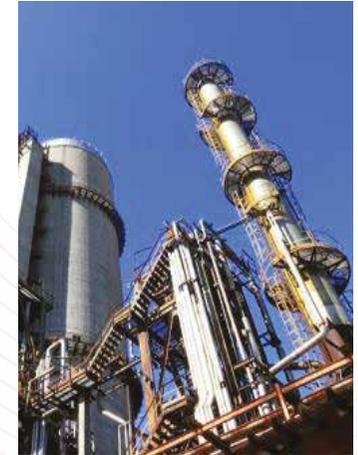

## ASG Oil Fields Services

- Nanotechnology for EOR Projects.
- Chemical Water Shut Off.
- Rapid Asset Performance Review. EPCC
- Down Stream (Refineries and Pipeline).
- Power Plant and Gas to Power Projects.
- Petroleum Engineering Training and Consultancy.
- Petroleum Engineering Laboratories (PVT, CCA, SCAL and EOR). Supply Oil and
- Gas Equipment and Materials Such as (Production, Refinery, Drilling, Work over, Coil Tubing and Artificial Lift, Injection Pumps, and Equipment).

## Upstream, Midstream & Downstream

Project Management, Engineering, Procurement, Construction, Commissioning (EPCC) in Oil & Gas services (Pipelines & Storage Facilities, Gas Processing Plants, Gas Processing Modules), Petro-chemical Industries, Power Plants, Refining, Operation & Maintenance for Oil & Gas Facilities (O&M), Oil & Gas Equipment and Spare Parts Supply, Inspection Technology and Infrastructure.

# Supply Of Oil & Gas Equipment, Material/Chemicals

- Artificial Lift (ESP, PCP, BPU etc).
- Drilling, Work Over and Completion (Casing, Tubing, Mud Chemicals etc).
- Wellheads, Valve and Packers.
- Thermal Equipment (Thermal Wellhead, Thermal Casing, Tubing (VIT) and Thermal Compensator and Packers).
- Production and Down Hole Tools and Chemicals.
- Production Surface Equipment (Eco meters, Monitor Instruments (Pressure and Temperature Gauge).

**ALFA STAR GLOBAL**

Oil Fields Services LLC
